### How to make your kit

1. Print this document (we recommend using 180—200 gsm matt card)
2. Keep the coloured female and male body visuals whole. Cut up the green and red body visuals as indicated below.

### Tips

- For greater durability you may consider laminating each individual red and green puzzle piece (as indicated below) and the complete coloured male and female pictures as base boards for the puzzle.
- For greater permanency, you may consider placing a Velcro “button” on the back of each puzzle piece and a Velcro strip on the surface where you want the cards to be displayed.

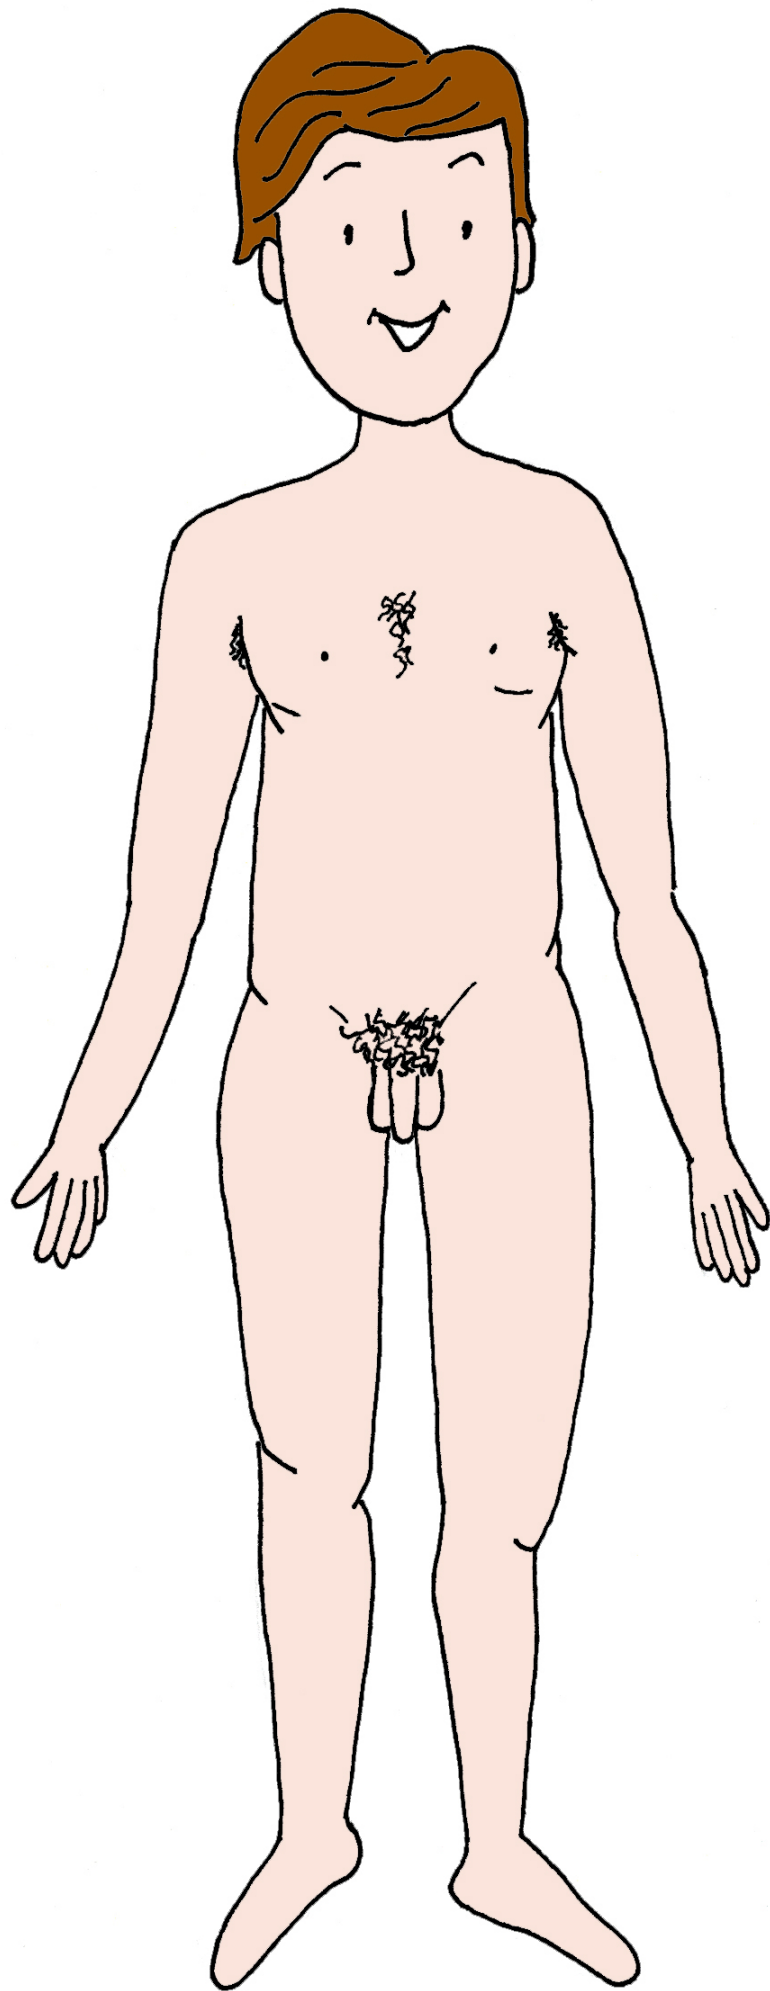

### How to use these visuals

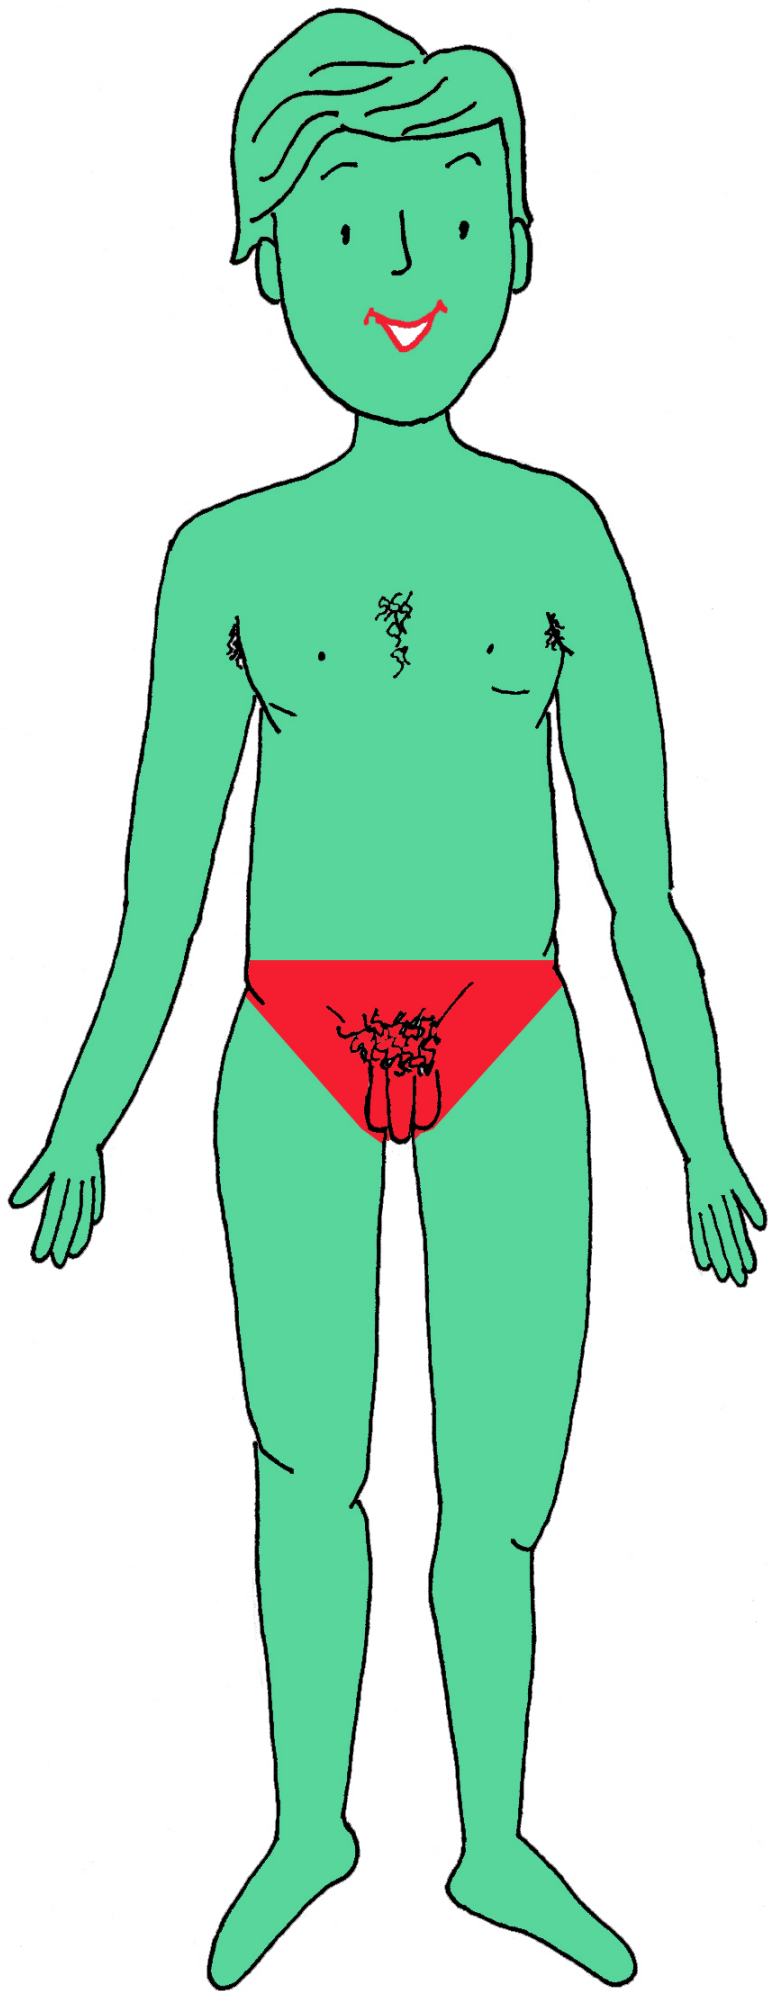

Use the full coloured pictures of the naked male and female as puzzle base boards. Cut around the green and red naked male and female and then cut each picture so that the red “private” body parts are separate from the green “public” body parts. Have the students match the green and red body parts onto each of the coloured base board pictures. Cut and use the words on the last page to label the body parts correctly.
